Indiana Report on Covid Recovery

Change in Math Achievement 2019-2022 by proportion FRPL in Indiana districts

Change in Reading Achievement 2019-2022 by proportion FRPL in Indiana districts

Change in Math Achievement 2022-2023 by proportion FRPL in Indiana districts

Source: Education Recovery Scorecard, by Harvard CEPR and Stanford SEDA.
 Notes: All estimates are based on published state assessment results, which have been rescaled to grade equivalents using state scores on the National Assessment of Educational Progress. For historical comparability, the proportion of students receiving free or reduced price lunch reflects the estimated number of students in households with incomes below 185% of the federal poverty level in Census data. Some districts may have higher rates of federally subsidized lunch recipients due to the community eligibility provision. The sample of districts shown have been limited to districts with reliable estimates. Labeled points represent districts with at least 800 tested students per grade. The regression line displays the overall trend within the state. For details on the methodology see <https://edopportunity.org/methods>.
